

WORLD YOUTH SKILL DAY

July 15th, 2025

On World Youth Skills Day, NCC cadets from 4/6 COY, 7 KAR BN NCC engaged in a hands-on session with a six-axis industrial robot. The event highlighted vital technical skills, including programming, precision motion control, pick and place operations, and collaborative teamwork. Cadets gained practical insights into modern manufacturing automation and robotics safety protocols. This experience not only boosted their confidence in emerging technologies but also underscored NCC's dedication to nurturing future-ready, skilled engineering talent.
