

20th Indian Society for Technical Education (ISTE)
Karnataka State Level Student Convention 2024-2025

Event Name	DATA DIVE
Date, time & Venue	28 th March, 2 – 4 pm, AIML lab 1 and 3
Total No of Participants	9 teams (18 participants)
Event Description	<p>Data Dive is a two-round competition designed to test participants' AI-assisted problem-solving, logical thinking, and analytical skills. In Round 1, teams decode hidden messages from 15-20 second audio clips using AI tools like speech-to-text converters, ensuring no random guessing or external help. Successfully decoded messages advance teams to Round 2 along with points rewarded based on their round 1 results. Round 2, they must solve two mystery stories as quickly as possible. Each mystery comes with four available clues, but using them results in point deductions (ranging from 150 to 300 points). The fastest correct answer earns the highest score, and in the case of a tie, the team that used fewer clues ranks higher. Strict rules prohibit AI, online searches, and discussions with other teams. Strategic clue usage, logical thinking, and teamwork are key to winning the challenge.</p>
Prize Winners	<p>Student name/College name 1st Prize: Dhanya J, Vaishnavi P 2nd Prize: Hemanth M, Mohammed Zabiulla</p>
