

# **NEW HORIZON COLLEGE OF ENGINEERING**

New Horizon Knowledge Park, Ring Road, Marathalli  
Autonomous College Permanently Affiliated to VTU, Approved by AICTE & UGC  
Accredited by NAAC with 'A' Grade, Accredited by NBA

## **DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING**

**Report on : The Cohesion Crucible**

**Name of the Event: The Cohesion Crucible**

**Name of the Club : Tech-Forge Club**

**Event Date: 09/Dec/2025**

**Venue: IDEA LAB**

**Audience: NHCE STUDENTS**

### **Gist of the event:**

**Cohesion Crucible was an engaging team–coordination based activity designed to test communication, collaboration, and problem-solving skills under unique constraints. The event was conducted in two dynamic rounds where each team member was assigned a specific role — blindfolded, and speechless — creating a challenging yet fun environment that emphasized non-verbal interaction and mutual understanding. In Round 1, participants worked together to solve a puzzle through a structured communication chain using only gestures and verbal guidance within defined limitations. Round 2 elevated the difficulty with a coding challenge that required identifying and correcting errors while maintaining the same role restrictions, encouraging logical thinking alongside teamwork. The event successfully fostered leadership, patience, creativity, and strategic coordination among participants. It concluded with an energetic prize distribution**

ceremony where winners were announced based on cumulative scores, making the experience both competitive and memorable for all teams .
