About College

New Horizon College of Engineering is an Autonomous College affiliated to Visvesvaraya Technological University (VTU), approved by the All India Council for Technical Education (AICTE) & University Grants Commission (UGC). It is accredited by NAAC with 'A' grade & National Board of Accreditation (NBA). New Horizon College of Engineering is located in the heart of the IT capital of India, Bangalore. The college campus is situated in the IT corridor of Bangalore surrounded by MNCs and IT giants such as Intel, Accenture, Capgemini, ARM, Symphony, Wipro, Nokia, JP Morgan and Cisco to name a few.

About the Department

The Department of Computer Science and Engineering at NHCE was established in 2001. It offers UG, PG and Ph.D programmes. The department has a total strength of 1000+ students along with highly qualified and experienced faculty. The CSE department strongly emphasizes on learning the fundamentals and analysis of latest technology to develop student's creativity and encourages them to take up projects with varying levels of complexity. The department ensures continuous skill enhancement for students along with holistic development through various club activities, workshops, conferences, seminars, etc. The department has two industry-supported labs, one in HPE on Big Data & Data Analytics. The another one is Robotic Process Automation (RPA).

About the FDP

The Faculty Development Programme will help to disseminate the knowledge in the domain of Data Science and Machine learning. It empowers the participants to understand how data science can be used to innovate and improve the business process. Machine Learning is a fast-growing field of Artificial Intelligence concerned with the study and design of computer algorithms for learning good representations of data, at multiple levels of abstraction. Since data is overwhelming, organizations are struggling to extract the powerful insights they need to make smarter business decisions. The participants will be trained with hands-on approach in order to have an in-depth insight into the domain of Data Sciences and expose them to feasibility and future scope.
