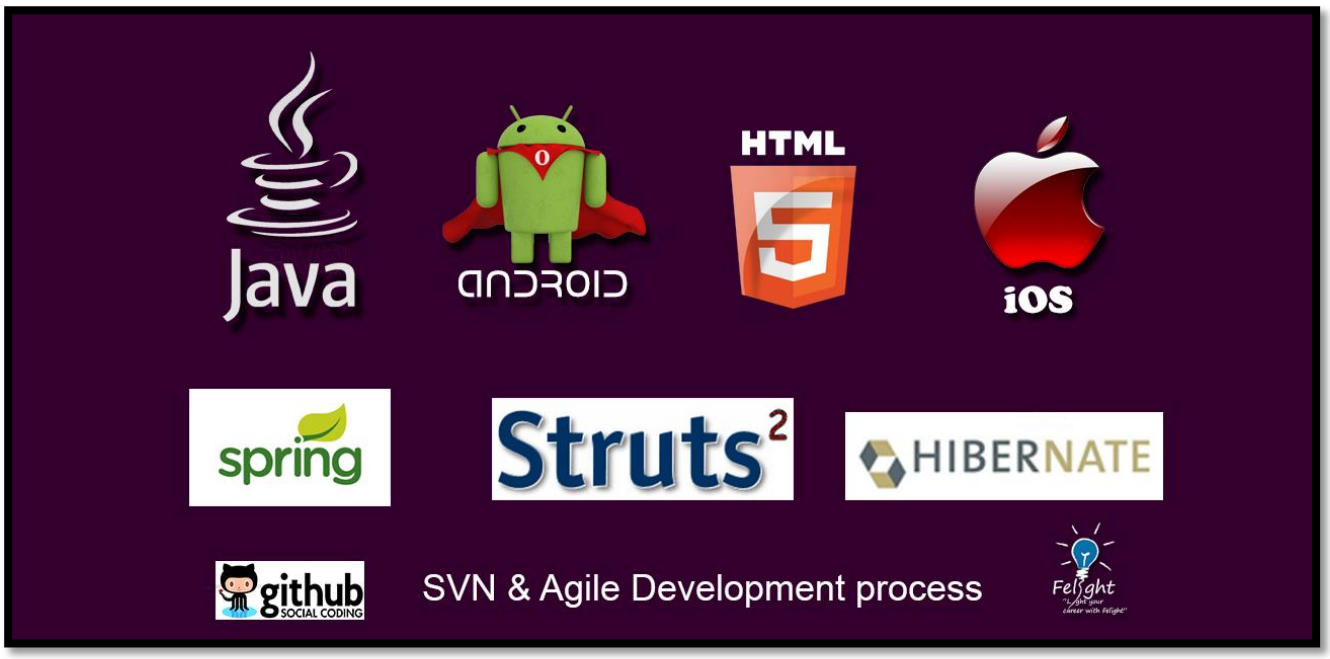
Java & Java Frameworks Training proposal for New Horizon College of Engineering

By

Felight Training & Consulting Services India

ABOUT **US**



Felight is the registered trademark of Flamboyanz Software PVT LTD, Bangalore. We are award winning mobile app Development Company and published more than 32 apps to market. We are also well established in corporate training in mobile and enterprise space.

OUR **PROFILE**

Since 2005, we have been helping IT professionals get better at what they do by providing an extensive range of training services on open source Software solutions and Agile practices.

WHAT **WE DO**

- Technology training for Corporates and Individuals.
- Corporate training on Software Development methodology and design.
- Softskills Training.
- Software Development Consulting & On demand application development.

Striving towards excellence, we are constantly exploring new fields of knowledge as well as new training methodologies and new ways of presenting to better serve our clients. We pride ourselves by standing by our commitment to help IT professionals get to the next level, by being in tune with our customers' actual needs, and by always delivering on what we promise, all while having fun doing it.

We believe in using technology to deliver a superior customer experience. Over the years, we have created a Training Management Platform we call Felight ROBO. It helps us run our business more effectively and recently we have started offering it to other training companies.

If you are looking for high quality IT and IT related vocational training that is industry recognized, with the added excitement of learning in Bangalore and the choice of a weekend or weekdays schedule, your search stops right here – at FELIGHT.

At Felight we emphasize on building the skills in our students which are valuable and also have a great demand in the marketplace. These include Java, J2EE, Struts, Hibernate, Springs, Ruby on Rails, Dot Net, Android, ios & HTML5 technologies.
