# BIG DATA AND ITS TECHNOLOGIES WORKSHOP

HP Centre of Excellence, CSE department in association with CSI has conducted a workshop on "Big Data and its Technologies" in HP lab on 14th September 2019. The session was conducted by Mr. Vithal Sampagar, Module Lead, Impetus Infotech India.

Students from 5th semester A, B and C section attended the session. The topics like Vertica database architecture, Vertica database operations, Vertica use cases, star and snowflake schema, introduction to Hadoop and its various tools were covered along with demo sessions.

# PARENT-TEACHER MEETING

The department of CSE organized "Parent-Teacher Meet" that served as a connection platform for parents, teachers and the students, where teacher and parents come together to enrich the student's educational experiences and discussed variety of issues, regarding all round development of students. Around 125 parents accepted our invitation and attended the meeting. The meeting has been organized in such a way that parents have a chance of one-to-one interaction with the teachers before the Semester End Exams and once the CIE – 1 was completed. It aimed at bridging the gap between parents, students and teachers, keeping parents informed about their ward's performance and progress, and also discussed the causes behind the student behavior and performance.

This enabled the parents to know about the weaknesses of their ward, so that they make him/her work towards improvement in the courses required.

This meeting provided a platform where the parents and teachers also got to know about each individual personally, so that they can plan accordingly for better results and behavior of the students. Overall, it was a platform for sharing the suggestions and clarifying the doubts of the parents with respect to placements, internship, project works and other co-curricular and extracurricular activities that are happening in and around the department/college that helps in improving the students' progress.

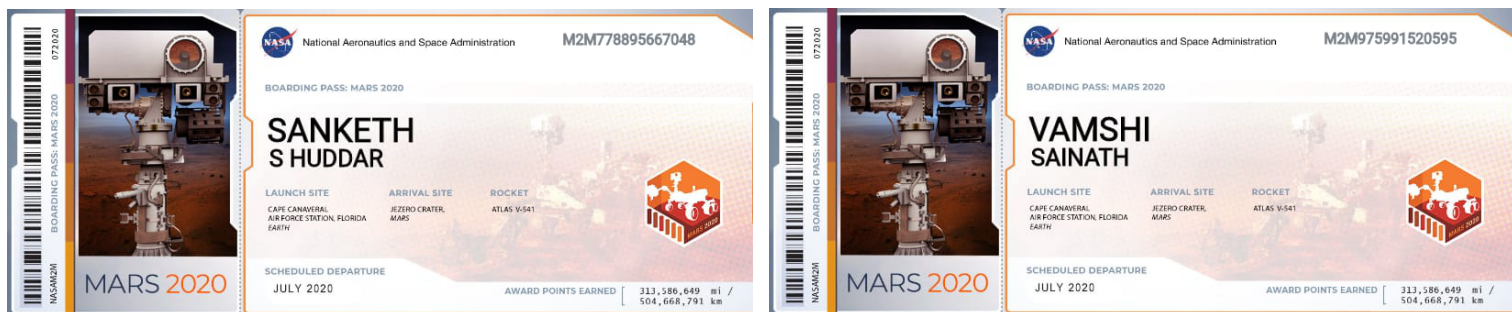

## EXPERT LECTURE
