

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

REPORT ON INTRODUCTION TO ETHICAL HACKING

Speaker: Mr. Vinay Khande, Associate consultant and Certified Ethical Hacker, Allstate Solutions Pvt Ltd.

Date: 8TH February 2020

Venue: HP Centre of Excellence Lab

Audience: 6th semester A, B, C section students

Gist of the Event:

HP Centre of Excellence, CSE department in association with CSI has conducted a workshop on "Introduction to ethical hacking" in HP lab on 8th February 2020. The session was conducted by our VTU alumni Mr. Vinay Khande, Associate consultant and Certified Ethical Hacker, Allstate Solutions Pvt Ltd.

Students from 6th semester A, B and C section attended the session.

The topics that were highlighted through practical session were:

- How email ids are hacked through the site - cyberforensics.in.
- How emails are sent through someone else's mail Id without having knowledge of their password using emkei.cz.
- How to trace the sender of a mail and all of the sender's details like where his office is situated, the IP address of the sender's computer, etc using IP2location.com
- How one could detect malware in files without a paid virus protection.

Overall, the workshop was very helpful and gave the students an insight in the field of cyber security

Thanks to the authorities of NHCE for the support.
