CIPHER-1

Cryptography — the science of secret writing — is an ancient art. Some experts argue that cryptography appeared spontaneously sometime after writing was invented, with applications ranging from diplomatic missives to war-time battle plans. It is no surprise, then, that new forms of cryptography came soon after the widespread development of computer communications.

To satiate the enigma enthusiasts inside you, NHCE presents the ultimate cryptography event that will not only leave your mind working at an insane speed but also get your adrenaline rushing.

RULES:

- Solo Event
- Consists of 3 rounds
- Each round having a duration of 30-45 minutes
- Free Registrations
- Use of search engines, books, or related resources are not allowed
- E-certificates will be provided.

CYBERNATED CONFLICTS

When medieval scholars set out to establish the curriculum of the world's first universities, they considered three liberal arts essential for leadership and promotion of the best ideas: grammar, logic, and rhetoric. Best way to test them, engage in disputations - in other words, debates.

RULES

- Participants shall register in teams of two, aware that one participant would go for the topic, and the other would go against.
- The topic of the debate shall be disclosed during the event, with 15 minutes to prepare for it.
- Each participant would get speaking time of 90 + 30 seconds.
- Participants using any sort of hurtful words/comments shall be disqualified immediately.
- The judges' decision would be the final decision
- E-Certificates will be provided

TECH SHARK

Ready to “reap” what boredom made you sow? With Tech Shark, we present to you a change to put all that upskilling to some use. The event consists of two rounds. In Round 1, you will be given a technical product (Visual Studio Code, Chrome, and the kind) and you have to convince and impress The Sharks aka the judges that your product is worth buying. For round 2, it’s the Air Crash! We all have heard of the games or scenarios where there are a lot passengers but limited parachutes. During this round, you will be given a famous tech personality.

RULES

- Participants shall register individually.
- The product/personality shall be assigned during the event.
- Each participant would get speaking time of 2 minutes, for Round 1 and 60 seconds for Round 2.
- Participants using any sort of hurtful words/comments shall be disqualified immediately.
- The jury’s decision would be the final decision.

IDEATHON

To overcome increasing brand challenges in this highly competitive industry, NHCE brings to you an IDEATHON to discover real brand solutions. An Ideathon is a short, intensive, brainstorming event to help young talents generate fresh solutions.

Problem statement list will be given a day prior to the event where teams have to select 1 problem statement and come up with the best and unique solution.

RULES

- Team of maximum 3.
- The event is of two rounds.
- Problem definition and solution should be unique and not copied from any other existing projects.
- Power point presentation should follow the format given on the day of event for both the rounds.
- Judges decision is final decision.
- E-certificates will be provided

WEB PLAY

Web development skills are in high demand worldwide and well paid too – making development a great career option. It is one of the easiest accessible higher paid fields as you do not need a traditional university degree to become qualified.

Web Play is an event for the Web Developers. The participants will have to develop a webpage based on the theme given to them. They just have to develop the front end using html5, css3, javascript or any other frontend framework.

RULES :

- Solo event
- Duration: 2hrs 30mins
- Free Registrations
- E-Certificates will be provided
