Training Report on LATEX

By

Dr Ashok K

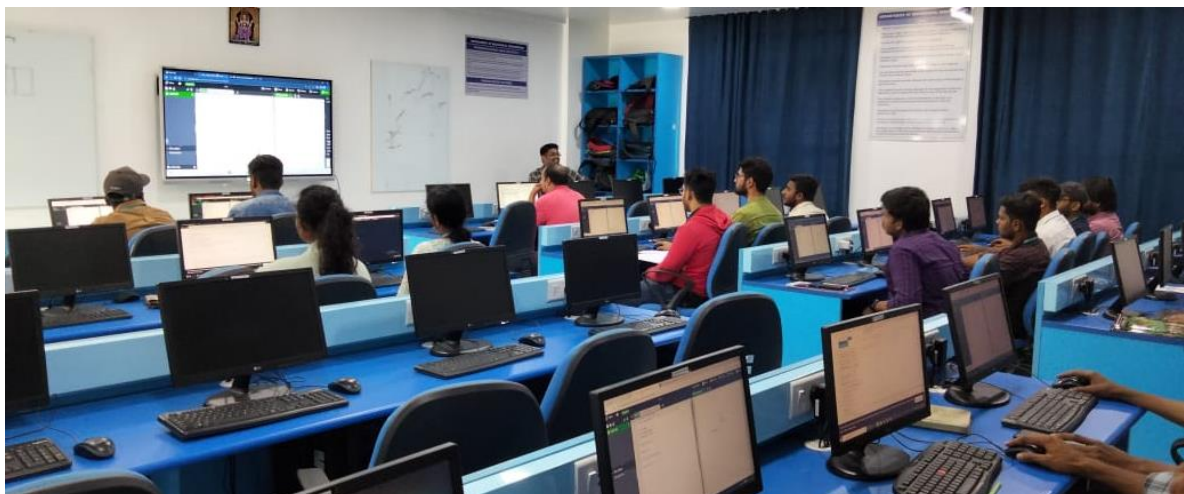

Report by:

Dr. Glory Mercy C

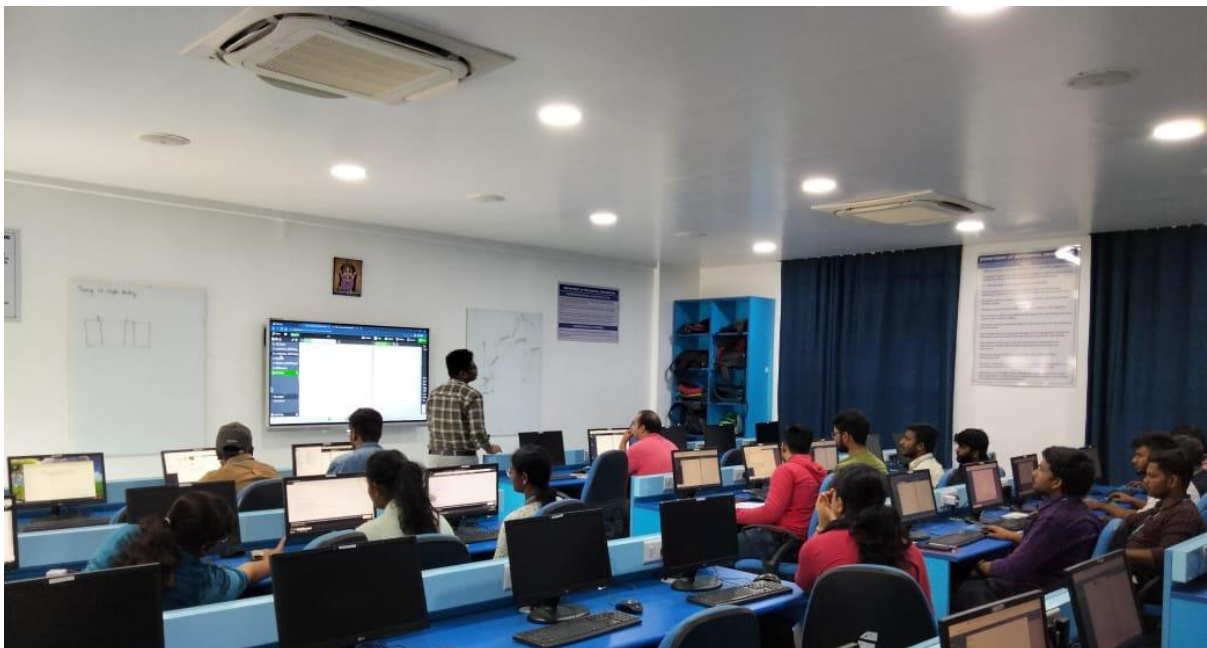

HR- Trainer (QASDC)

The QASDC department held an expert lecture on March 17, 2023, in conjunction with the NHCE Bangalore civil engineering department. Dr. Ashok K. Sir. shared his many suggestions and techniques for downloading a pre-existing latex file and making the necessary changes for our conference paper. An assistant assists the students in creating reports for conferences papers and final year project reports.

LaTeX is a top-notch typesetting programme that has tools for producing technical and scholarly documentation. The de facto standard for sharing and disseminating scientific papers is LaTeX.

It is a set of software for creating documents. The writer writes in raw text rather than the formatted text that can be found in WYSIWYG word processors like Apple Pages, LibreOffice Writer, and Microsoft Word.

LaTeX is a high-quality typesetting software widely used for **document preparation in academics.**
