Glimpses of the Event:

Mr. Rabindra Sah led discussions to empower all Engineering students to independently dream about and pursue their career goals.

He also discussed how to determine your strengths. Understanding how your abilities, talents, values, and interests relate to potential jobs or careers. Matching your abilities to current jobs or careers.

NEW HORIZON COLLEGE OF ENGINEERING

He stated that life is more than just our trade and career goals; it is full of colours, wishes, love, and ambition, as well as relevant achievements that put us in a better position to achieve our goals and ambitions.

We should always strive to be better than we were yesterday and we can change our circumstances and our lives for the better in the future.

Message for Industry Expert- Rabindra Sah : 3/4

Excellent speech sir
Awesome motivation
. I thought we had less time so sir rushed the technological part which i was most interested about overall the session was very innovative and fun.
Thank you sir
It was fun
Great presentation sir, You are genius and multi talented.
It was a great session ..it was useful
U r inspiring
I Personally think that we've learned a lot from Sir. And I feel that we need to take in and adopt the message provided by sir and not the other way around.
Your presentation is good . I learn many things about technology
Sir your energy and aura is very encouraging and motivating
Love the way you live
I enjoyed your session very good presentation skills.
Keep up your spirit
Nothing much but he was great

Nice
Thank you so much for coming and giving us an inspiring talk. it was very inspiring to here about your life.
Sir one hour session was not enough
Sir you are just amazing!
your experiences in all fields inspired us to always keep trying
Thank you for motivating us sir.
This session was useful
Good speaker and motivated us so much.
SIR I AM HAPPY TO MEET SOME ONE LIKE YOU WHO IS ENJOYING HIS LIFE ,I LEARNT MANY THINGS FROM YOU BUT THE MOST I LIKED IS YOUR EXPLORING EVERY THING IN LIFE
You will meet me after eight years on the same day

Message for Industry Expert- Rabindra Sah : 4/4

Excellent and motivating	Energetic speaker and motivator
Sir I want more sessions from you	All the best for the Everest base camp!
The real motivation I got is from you, Sir . I'll try to achieve everything I've dreamt of	great and inspiring presentation
Super	You're good sir.
The session was really good sir	Just do these sessions more and more and keep motivating youngsters
Very good sessions	Productive session
Little more interactive	Great experience
Will include the 7 Mantras	No feedback the session was perfect
Answered above	Nice
Felt happy	Since Motorsport is not much considered in India
Nothing much	I want more webinars to learn about AR VR XR
It was good	Session was good and interesting.
Thankyou, you will be an inspiration	Nice talk sir
More sessions like this	We had less time
You are great	Flow of presentation could have been better
Thank you for giving us motivation and knowledge	It's good
Nothing	More events like these should be conducted
Amazing and inspiring	Very energetic person with best skills
Thanks for ur support sir ..	It was good session
Learn new things	None
The session was very informative	Loved your lecture session very much sir.

One of the things about you is that you are healthy, disciplined person
 In interview please select the talented who are not able to speak with you but has talent and check the talented using your talent because many of the talented are inertarker

Feedback:

What are your top three learnings from session? : 1/5

Innovation Enjoy your life with cocurricular activities. Not stressing out and being a nerd, but being a cool and charming person.	We need to learn cultural, sport and other skills Asking questions is important Learning,relearn Learn to interact

What are your top three learnings from session? : 4/5

Competitive spirit , Knowledge, Interactiveness	There is time for every thing but we should use it wisely Every field has high opportunity
Explore Collaboration learning Research Design thinking	1)We can grow in life when we are collaborative. 2)Never fear to try something which looks difficult to perform. 3)We need to get answers from the right mentor who can change our life.
Have curiosity, asking questions, importance of collaboration	-
Success is not a destination... It's a journey	1.Time management 2.Ask questions 3.Exploring the world with new things
1)To Use my time wisely 2) to develop my skills in more than one domain 3) to learn from hand on experience	Innovation Design thinking
Asking questions 7 mantras Multi talented	Learning form others Time management Skill -re skill-up skill
1. Dont waste time 2. Learn new skills 3. Work hard	Learning never stops with one field Development starts when you are ready to learn
1.Collaboration 2.Time management 3.Exploring the world with new things	To get a better outcome there should be a passion towards your work Sorry to interrupt inbetween the session because I know how much time and effort you would have put to prepare this presentation so I wanted students to understand your effort.
Campus to career growth	
Be curious Be productive Manage your time	

What are your top three learnings from session? : 5/5

Be confident
Don't be nervous
Be extrovert
Self worth
Built your skills, manage your time, keep yourself focused and motivated. And a lot more
Being curious for our surroundings, never give up,
To be hungry for your future , to be innovative, to be active
Build passion, have curiosity, reach goals
To improve our skills
To have confidence
To have courage to ask questions if we have any doubts
Be active and participate matters
Communication matters
Enjoy your life
Be passionate
To be healthy in life enjoy every moment.
1.ENJOY YOUR LIFE TO YOUR BY DOING EVERYTHING WHICH YOU WANTED TO DO
2.THERE IS NO AGE TO LEARN ANY THING NEW
3.TAKE UP NEW CHALLENGES AND TO IT
4.PLANE YOUR TIME AND GIVE YOUR BEST YOU CAN
I can creat a new world,
I can creat technology,
I can stop world

Impact:
