

NEW HORIZON COLLEGE OF ENGINEERING MUSIC CLUB

EVENT REPORT

Our first event named "DHWANI" held on 5/11/2016 was a great success . It was a talent show with an objective to search musical talents in our college. There were 43 participants in 4 different categories ie solo singing, instrumental, rapping, beatboxing . Out of which five of them won and were appreciated with certificates . The judges for the event was cristoper lee(music director kannada industry) and john Solomon(assistant music director).

The participants of this event will be given chance for any activities that happens in college and the winners will be encouraged to train others who are interested to learn music. The club has learnt a lot from this event and is powered to do better events in future. The club also promises to produce good musical talents out of college .

The hard work of committee members , support by other clubs and club members are the main reason for success. We whole heartedly thank Anitha maam for her support and encouragement finally we thank college for giving a great opportunity to organize this event . Thank you keep encouraging us.
