

## **REPORT ON POETRY DAY**

On March 21st, World Poetry Day unites poets worldwide, celebrating UNESCO's 1999 establishment to honor poetry's role in cultural heritage, linguistic diversity, and creativity. In 2024, an online event was conducted by the Marketing and Branding department in association with The Literary Club, NHCE, to gather diverse student works showcasing the power of language. The response was overwhelming, with poets from diverse backgrounds and cultures contributing their unique perspectives and voices. The event rose to prominence, deeply resonating with the audience, and symbolizing the essence of poetry's universal appeal and impact. We had received poems in three languages: English, Kannada, and Hindi. Students' creativity and words painted the world with beauty and inspiration.

The selected poems, featured on our official Instagram page.
