

A Report on Alumni Talk

On 19th December 2024, the Alumni Association hosted an engaging and insightful Alumni Talk featuring Mr. Mohammed K P, an alumnus from the 2016-2020 batch. Mr. Mohammed, who is currently the Managing Director of AAM Building Solutions, shared his remarkable journey from being a student to becoming a successful entrepreneur in the building solutions industry.

Mr. Mohammed began his talk by reflecting on his academic journey and the skills he gained during his time at New Horizon College of Engineering. He spoke about the challenges he faced while transitioning from a student to a professional and eventually to an entrepreneur. As the Managing Director of AAM Building Solutions, he shared his experiences of building the company from the ground up. He emphasized the importance of practical knowledge, networking, and seizing opportunities.

Mr. Mohammed provided an overview of the current trends in the construction and building management sectors. He discussed the growing significance of sustainability, energy-efficient building solutions, and the integration of smart technologies in modern construction. He highlighted the importance of young professionals staying updated on these trends and continuously developing new skills to remain relevant in the industry.

The talk was followed by a dynamic Q&A session, during which students had the opportunity to engage with Mr. Mohammed. The questions ranged from career development advice to specific inquiries about the construction industry. Mr. Mohammed thoughtfully answered each question, offering practical advice drawn from his own experiences.

The session concluded with a heartfelt vote of thanks from the Alumni Club, expressing gratitude to Mr. Mohammed K P for sharing his journey and insights with the students. His talk was not only inspiring but also provided a roadmap for success in both entrepreneurship and the evolving field of building solutions.

Key Takeaways:

- The construction industry is increasingly evolving toward sustainability and the integration of smart technologies.
- Continuous learning, innovation, and networking are vital for career growth.
- Perseverance and adaptability are essential qualities for overcoming challenges and achieving success.
