Mr. Sunil P K - Faculty placement coordinator – AU
Mr. Rathish – Faculty placement coordinator – CE

Agenda: Meeting with faculty placement coordinators to discuss about the TCS registration for BE & MCA 2024 Batch & Nokia 2025 Registration.

Points Discussed:

TCS 2024 Batch Registration

- **Low Registration Rate:** As of April 9th, 2024, only 45% of students have registered for the TCS drive.
- **Mandatory Registration for Unplaced Students:** All unplaced students are required to register for the TCS drive. Failure to register will result in disqualification from further placement opportunities.
- **Placement Opportunities for TCS Students:** Students who are placed with TCS will be considered for additional opportunities, if available.

- **Company-Specific Training:** Training sessions for registered TCS candidates will be conducted by our aptitude trainers on Friday, April 12th, and Saturday, April 13th, 2024.
- **Department-Wise Headcount Submission:** Faculty placement coordinators must submit department-wise registration headcounts to Mr. Santhosh Kumar, Sr. HR Manager, by the end of day (EOD) on April 10th, 2024.

Nokia 2025 Batch Registration

- **Company-Specific Training:** Training sessions for registered Nokia candidates from the 2025 batch will be held soon.
- **Technical Topics Provided:** Technical topics relevant to the Nokia recruitment process have been shared with all HODs and faculty placement coordinators for reference.

Regarding Previous Placement Drives

- **ECE 2024 Batch - Capgemini 5G Shortlisted Students:** The Sr. ED has expressed concern about the performance of ECE 2024 batch students shortlisted for the Capgemini 5G drive. These students reportedly lacked basic knowledge of 5G technology.
- **ECE 2024 Batch Placed Students - Cientra Training/Placement:** ECE 2024 batch students who were placed were allowed to attend training/placement for Cientra without informing or involving the Department of HRD. This is a violation of protocol and should be addressed to prevent future occurrences.

2023 Batch - EXL Offers Revoked

- Offers for 14 students placed in EXL were revoked. These students have been given the opportunity to attend the LG Soft drive on April 10th, 2024.

2025 Batch Portal Registration

- All faculty placement coordinators must ensure that students from the 2025 batch complete their portal registration by April 12th, 2024. Registration invitations have already been sent to the students.

Sr. Executive Director

NHEI
