MIS Functionality:

The Online Fee Payment System at NHCE allows students to pay their academic fees easily through a secure web-based platform. Students can log in using their credentials, view their fee details (including tuition fees, exam fees, hostel fees, etc.), and make payments using multiple options such as UPI, debit/credit cards, or net banking.

Once the payment is successful, the system automatically generates a digital receipt, which students can download for their records. The system also sends payment confirmation through email and SMS.

All fee transactions are recorded in the system, allowing both students and the college administration to track payments in real-time.

This makes the entire fee payment process faster, more transparent, and hassle-free for students and staff.
