Chai Pe Charcha: Exploring Digital Transformation in Education

On the brisk evening of September 17th, 2024, the much-anticipated event "Chai Pe Charcha" unfolded, featuring a dynamic panel discussion on the theme of "Digital Transformation in Education." The event brought together thought leaders and industry experts to shed light on the evolving landscape of education in the digital era.

Dr. Rabindra Shah, Chief Engineer at Tata Technologies, gracefully assumed the role of the moderator, guiding the conversation with insightful questions and steering the discussion towards the core issues surrounding digital transformation in education.

The esteemed panel comprised six distinguished speakers, each bringing a unique perspective to the table:

1. **Mr. Manas Dasgupta: Co-Founder, Teksands**  
Mr. Dasgupta delved into the technological advancements driving education forward, emphasizing the role of innovative solutions in enhancing the learning experience. His insights highlighted how Teksands is contributing to shaping the digital future of education.
2. **Mr. Sudeep Srikantaswamy: Director - Wealth Management & Family Office, Bangalore**  
Focusing on the financial implications of digital transformation in education, Mr. Srikantaswamy explored how advancements in technology are reshaping financial structures within educational institutions and impacting wealth management strategies.
3. **Ms. Sonali Jha: CEO, Cunomial Technologies**  
Ms. Jha provided a forward-looking perspective on how her company, Cunomial Technologies, is at the forefront of developing cutting-edge solutions for the education sector. Her insights underscored the need for adaptive technologies to meet the diverse demands of modern learners.
