# INTRODUCTION

Organizing a blood donation camp is a powerful initiative that can make a substantial impact on the health and well-being of our community. It serves as a platform to raise awareness about the importance of donating blood and encourages individuals to actively participate in this noble cause. By hosting such an event, we create an opportunity to bridge the gap between those in need of blood and willing donors, ultimately contributing to a healthier society.

## ORGANIZED BY

The Rotaract Club of the New Horizon College of Engineering in collab with Leo Club organized the Blood Donation Camp in co-ordination the BMST not-for-profit organization of Rotary Club of Bangalore. On the Occasion of Founders Day.

They set up registration counters to screen potential donors and verify their eligibility based on age, weight, medical history, and other criteria. Donors were required to fill out a health questionnaire and undergo a brief medical examination to ensure their suitability for donation.

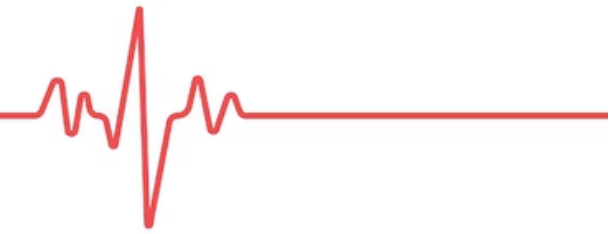

The camp was equipped with all the necessary medical equipment and supplies, including sterile needles, collection bags, and storage containers. The donation process itself was quick and relatively painless, with each donor giving approximately 350-450 milliliters of blood. ## **4) LEO CLUB NHCE: DEC,2023 – Closet For A Cause**

“For it is in the giving that we receive”.

Leo Club collaborated with Make a better place NGO to host a clothing donation drive “Closet for a cause “. All the club members had publicized the drive to get clothes donated by people.

MABP is a Bangalore-based NGO working for the betterment of the underprivileged since 2019. This is a non-profit Charity organization with a lot of support to give to various categories of children and people needing our love, concern, care, and support.

So, we asked people to donate clothes for the need. Clothes can be used/unused, blankets, and shawls in usable and not torn condition

We serve as a bridge between the common man, the affluent section, and the underprivileged section of society. We are working towards uplifting the weaker sections of the community by providing various socio-economic and other social services.

Winters in Bengaluru go as low as 15-degree celsius. We wrap ourselves up with layers of jackets and blankets, but what about the others on the street? So the whole point of this campaign is to donate clothes and make a difference.

The members of the Leo Club NHCE conducted a clothing donation campaign from December 1st to December 5th. The students publicized it and also collaborated with the NGO to donate the clothes. The Leo club has collected a total of 129 clothes. This includes 82 women's and 40 men's clothes along with 4 blankets and 3 sweaters. And all these were packed in boxes and sent to the NGO Make a better place.

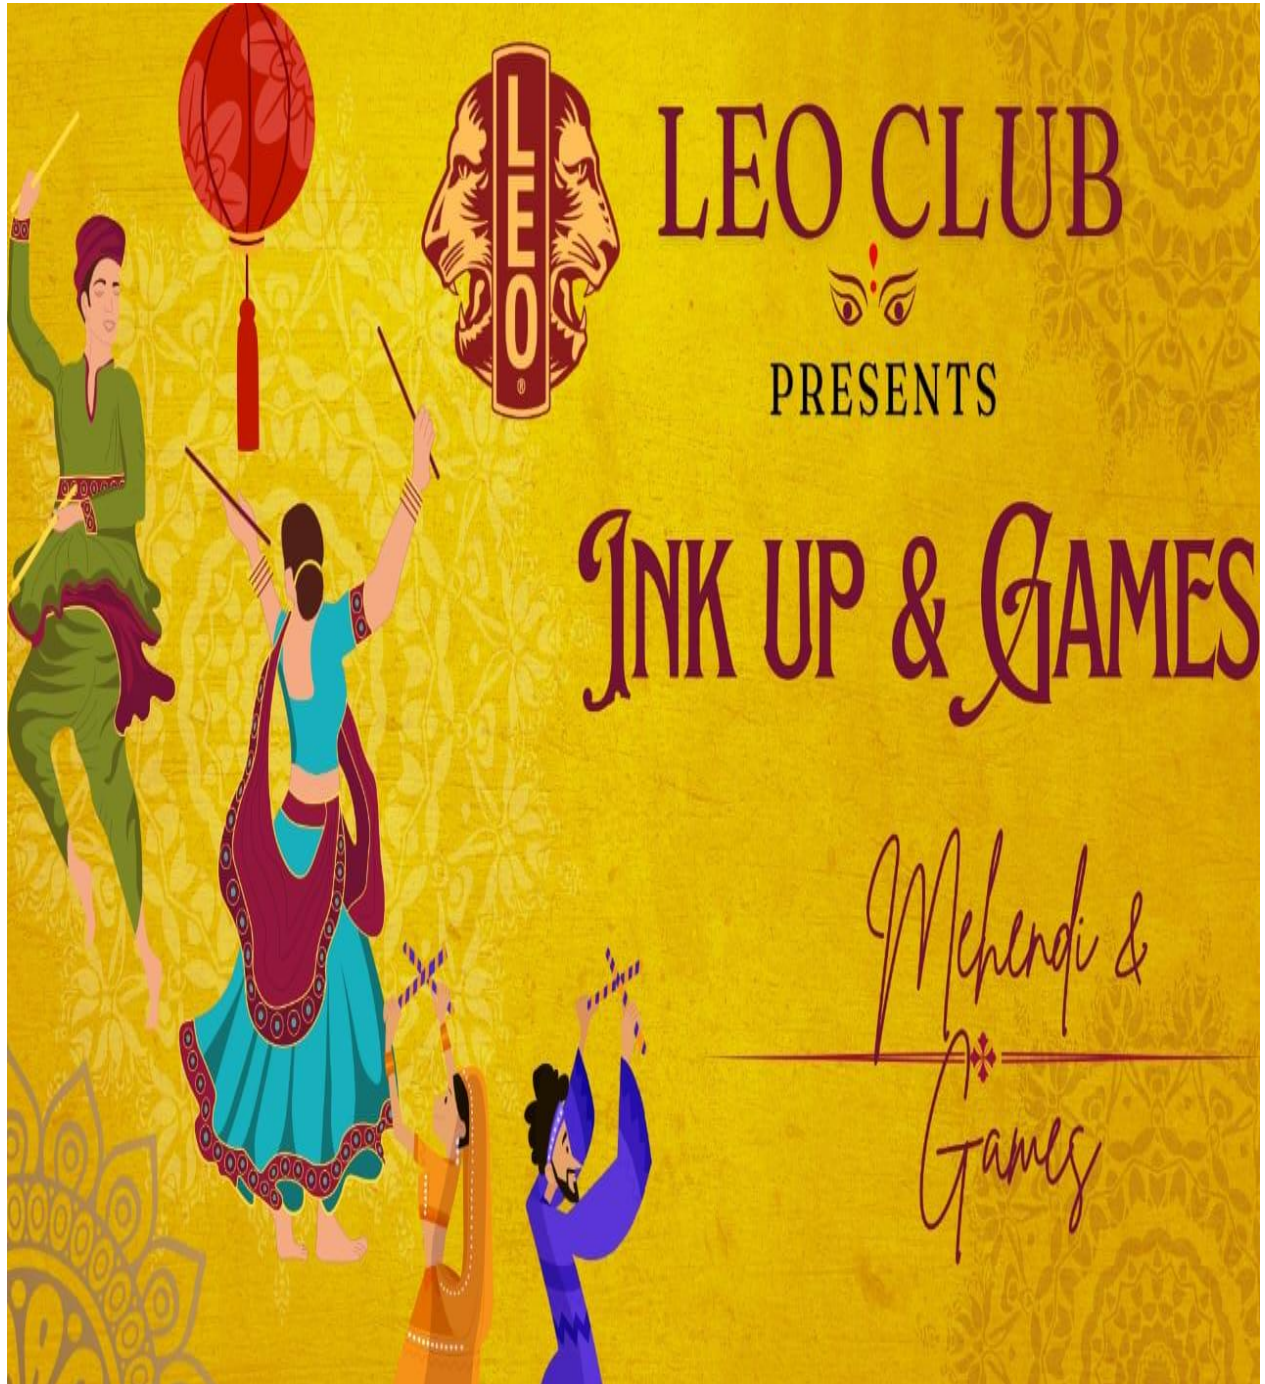

It was a very good campaign. We learned to organize things. The whole experience of giving things and making the world a better place to live is excellent.
