The Timetable Creation page in Contineo LMS offers a streamlined tool for scheduling and organizing course sessions. Instructors and administrators can easily create and manage class schedules, ensuring that lectures, tutorials, and practical sessions are properly allocated across the week. The page allows users to define course timings, locations, and faculty assignments, offering flexibility for complex scheduling needs. With intuitive drag-and-drop functionality, it simplifies the process of adjusting schedules and ensures that there are no conflicts. This feature helps institutions optimize resource allocation, streamline the scheduling process, and provide students and faculty with a clear, accessible timetable.
