Remarks	Successfully organized the UBA , IIC activity		

Objective(100 words)	Develop Entrepreneurial Awareness Enhance Practical and Life Skills Promote Self-Reliance and Community Development
Benefit in-terms of learning/skill/knowledge obtained (150 words)	The Outreach Programme on Entrepreneurship & Skill Development conducted at Cheemasandra Village Government School provided students with meaningful experiential learning that enhanced both entrepreneurial awareness and essential life skills. Through interactive activities, students learned the importance of creativity, innovation, problem-solving, and identifying opportunities in their everyday environment. Practical skill-based sessions encouraged effective communication, teamwork, leadership, critical thinking, and decision-making while building self-confidence. The programme also introduced students to the concept of self-employment and the value of developing skills that can contribute to future career opportunities. Hands-on activities helped improve their creativity, resourcefulness, and ability to work collaboratively. Students gained a better understanding of responsible citizenship, sustainable practices, and the importance of contributing positively to their community. Overall, the programme inspired young learners to think independently, develop a positive attitude towards entrepreneurship, and recognize that innovation and skill development are essential for personal growth, employability, and nation-building.
Key outputs/ Measurable Parameters (150 words)	Active participation of school students in entrepreneurship awareness sessions, group activities, and hands-on skill development exercises. Improved communication, teamwork, creativity, problem-solving, leadership, and decision-making skills among participants. Increased understanding of entrepreneurship, innovation, self-reliance, and sustainable practices through practical learning activities. Enhanced confidence in presenting ideas, participating in discussions, and working collaboratively in teams. High participant engagement and positive feedback indicating improved knowledge, interest, and motivation towards entrepreneurship and skill development.
